

Welcome to Day 3!

Oncology Program Update – Archana Sah, Tizona Therapeutics and Chair, SCRS Oncology Program

Digital Innovation Initiative – Jimmy Bechtel, SCRS

Special Projects – Michael Jay, SCRS

SCRS Membership Committee

Michele Cameron - Chair

Clearwater Cardiovascular Consultants

Kristine Majors - Chair

IACT Research

Alyssa Ashley

Renstar Medical Research

Roberto Aquirre

AGA Clinical Trials

Wes Bonner

Meridian Clinical Research

Matt Lowery

CRBD Plus

Melissa Poindexter

Advances in Health

Jeremy Rigby

Advanced Clinical Research

SCRS Leadership Council

Deena Bernstein

Circuit Clinical

Hans Hoeck

TrialCare Research

Fabian Sandoval

Emerson Clinical Research Institute

Jennifer Burgess

Transcelerate Biopharma, Inc.

Chris Hoyle

Elite Clinical Research

Doug Schantz

Alexion Pharmaceuticals

MarieElena Cordisco

Nuvance Health

Jackie Kent

SCRS Oncology Updates and Workstream Progress

Archana Sah

VP and Head of Clinical Development Operations

Tizona Therapeutics

Chair, SCRS Oncology Program

Jimmy Bechtel

Director of Innovation and Engagement

SCRS

October, 2020

Our Active Workstreams

1. Education

2. Site Assessment and Engagement

3. Oncology Summit

Global Oncology
Site Solutions Summit
PARTNERING FOR SUCCESS

Site Solutions Summit
PARTNERING FOR SUCCESS

SITES NOW  #SCRS20

Education

- Webinar Content
 - Virtual Oncology Series
 - Every other month content, focusing on Oncology subjects
 - ~8 webinars scheduled for 2021
- New project this year - Phase 1 Site Training and Education

Global Oncology **WEBINAR SERIES**

Site Assessment and Engagement

- Grow our membership and make our benefits valuable
- 5 Key Priority Projects
 - Oncology Online Community – Done!
 - Site Anecdotes – Done!
 - Board Member Materials – Nearly Done!
 - 2 additional projects – Stay Tuned!

Oncology Summit

Global Oncology
Site Solutions Summit
PARTNERING FOR SUCCESS

Site Solutions Summit
PARTNERING FOR SUCCESS

- Nearing Completion of our 2021 Summit Agenda
- Surveying the community for applicable topic areas
- Reviewing feedback from 2020's summit
- Shaping up to be another great summit
- 2020 was a 40% increase in attendance over 2019!

SITES NOW  #SCRS20

SCRS Digital Innovation Initiative

Jimmy Bechtel

Director of Innovation and Engagement

SCRS

SCRS
Digital
Innovation

October, 2020

Digital Innovation Initiative

- Began back in late 2019
- Survey and discussion led the group to focus on two main areas of digital innovation

Decentralized
Trials

Connected
Devices

SCRS
Digital
Innovation

Digital Innovation Initiative

"Sites be part of the conversation."

Workstream Chairs:

Decentralized Trials

Amanda Rangel
EVP of Business Development
VirTrial

Deena Bernstein
SVP of Networks & Partnerships
TrialScout

Connected Devices

Michael King
CSO Project Leader – Diabetes
Sanofi US

MaryAnne Rizk, PhD
SVP of Digital R&D Strategy
IQVIA

Digital Innovation Initiative

- Both Workstreams have produced effective and valuable Terms and Definitions appendices
- Working through Scope of Work
 - Deliverables, constraints, goals and purpose

Definitions

Digital Innovation Initiative

- Moving next to recommendations
 - Bringing the scope of work to life
 - Focusing on bringing the site voice to the technology
 - Helping them continue to chart a course through innovation

Digital Innovation Initiative

[Home](#) > [Digital Innovation Initiative](#)

SCRS' mission of site sustainability and commitment to providing value to member sites has never been more important than it is in today's digital age. As industry advancements increasingly include the incorporation of new technologies, it is more important than ever that the global site community commit to continued education so they are a part of today's digital evolution. The SCRS Digital Innovation Initiative (DII) provides an avenue for industry partners to work closely with sites to bring the clinical research industry to the forefront of digital innovation and ensure site needs are heard and addressed.

The purpose of the DII is to represent the needs and voice of the site community regarding digital innovation and to prepare sites to integrate new technologies into their practices (ie. decentralized clinical trials (DCT) technology, ePRO, wearables and more). Recent data collected through several SCRS surveys conducted in partnership with GIP organizations VirTrial, Oracle, and IQVIA have indicated that 90% of sites need additional training or knowledge surrounding DCTs and recognize the potential benefits. Needs surrounding technologies like ePRO and Wearables are no different.

The site community's thirst for knowledge and resources is ever present. The Digital Innovation Initiative aims to bring the clinical research industry together to ensure we are prepared for the digital age.
